Re: RSA Market No. 444, Ky 2-Union  
Location: 54 West Lake Street

Dear Sir or Madam,

I own and reside on property at 110 West Lake Street, within 500 feet of the proposed building site of tower and antenna. I receive my television reception by cable, but I was considering a roof antenna for FM reception.

What would be the effects of the proposed antenna as concerns the efficacy of an FM antenna on my roof? Would there be any noise pollution from the proposed facility? What are my intervention rights?

Sincerely,

Stuart R. Baldwin, D.M.D.

RE: RSA Market No. 444, Ky. 2-Union

Dear Sirs,

C.N. 91-290

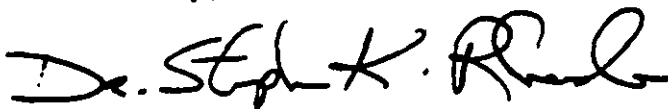

The following is in regards to the proposed construction of a Cellular Telephone cell facility by MO-TEL CELLULAR, Inc. at 54 West Lake Street in Madisonville, Hopkins County Kentucky.

Due to the uncertainty and irregularity of the property boundaries adjacent and/or adjoining the proposed facilities boundaries as well as the possible harmful repercussions which such tower and facilities may impose on myself and my business as well as the value of the surrounding properties, a request for time to arrange and implement a possible market study and/or survey as well as a more detailed and independent examination of the property boundaries would be greatly appreciated.

Any information surveys maps and/or construction plans and data would also be appreciated.

If there are any questions, please feel free to contact me.  
Thank You.

Sincerely,

Dr. Stephen K. Rhodes
